This cozy 1,488 square foot ranch sits quietly tucked behind a wooded lot and overlooks a private pond. With a custom stone façade and custom windows this home exudes warmth and charm. The interior design is more contemporary with a huge open space for the great room, kitchen, breakfast room, and dining room. This large space is highlighted by a vaulted ceiling, hardwood floors, stone fireplace and custom cabinetry with granite countertops. The master suite is also full of amenities and overlooks the beautiful pond and property.
