The Heritage is a stylish two-story home designed and built for today's family. Nestled on a cul-de-sac street with a great wooded back yard; this home has many custom features such as ceramic tile, gas fireplace, warm hardwood flooring, Master Suite with reading nook, a convenient second floor laundry room, and a walk out basement door. The savings and durability of this Certified Green Build home with ENERGY STAR® speak volumes in saving you money every month year after year. Can you really afford not to build Green with ENERGY STAR? Come see an affordable and incredibly beautiful GREEN home in one stop.

We don't just talk energy efficiency, we build it.
