First Floor

Second Floor

This customized version of the original, by “Design Basics”, has been a favorite two story of B.O.L.D. Home’s customers for a number of years. Nine foot ceiling, double staircase and a walkout basement overlooking the fenced in back yard and lake makes this an especially pleasing floor plan for this location. Stained woodwork, hardwood and tile floors, and wood windows accent this four bedroom home with all of the quality features you expect in a B.O.L.D. Home. This home is for sale and ready for immediate occupancy. B.O.L.D. Homes is a design/build contractor specializing in Energy Star and Green Building. We will build your plan or ours, on your property or in our neighborhoods. Visit our Model Home Sales Center and our website at www.theboldcompany.com.
