

# Have **Peace of Mind** with a **Registered Remodeler**

## **Deal With A Professional Registered Remodeler**

Your home is probably your biggest and most important investment. If you choose to improve your home, you want the finest workmanship, materials and designs obtainable within your budget.

The Register Remodeler emblem lets you make your decision with confidence. Established by the Home Builders of Northern Kentucky, the Registered Remodeler program sets strict professional standards for its members – and helps you identify qualified, experienced home remodelers.

When you do business with a Registered Remodeler, you're dealing with a remodeler who has committed himself to top-quality work, using the latest construction methods and materials – to give you the best possible value.

## **One – Year Limited Warranty**

Your Registered Remodeler is confident of the quality of his workmanship – and he backs it with a written one-year warranty.

## **Ethics & Conciliation**

When you chose a Registered Remodeler, you enjoy the protection of an ethics and conciliation agreement. Should you have a complaint that cannot be resolved with your remodeler, the Home Builders Association will investigate and make a determination of the remodeler's responsibility. A remodeler who fails to abide by the conciliation faces removal of their Registered Remodeler certification and expulsion from the Home Builders Association of Northern Kentucky.

# Have **Peace of Mind** with a **Registered Remodeler**

**When you're improving your home, you are planning a big investment. As with any other major investment, it makes sense to deal with a professional: Experienced, Reliable—a Registered Remodeler—a member of the Home Builders Association of Northern Kentucky.**

## **Here are some reasons to use a Registered Remodeler on your project:**

- Your Registered Remodeler carries worker's compensation and liability insurance in case of an accident, to put your mind at ease.
- All subcontractors are also required to have liability and worker's compensation insurance.
- The Remodelers are required to follow the Performance Standards of the building industry and a copy is given to all customers at the beginning of the project.
- Contracts are prepared by an attorney who specializes in construction law. This offers protection to you and the Remodeler.
- A one year warranty is issued once the contract is completed.
- Progress payments are due once the work is completed – not before they are completed.
- Registered Remodelers are required to take continuing education credits throughout the year to keep them informed on all new code and safety changes in the industry.
