

Home Builders Association of Northern Kentucky

HVAC CURRICULUM

COURSE 1:

Furnaces-80%, 90%/Venting/Wiring/Start-Up/Controls/Service

COURSE 2:

AC & Heat Pumps/Tubing/Brazing/Charging/Service/Leak Testing/Trouble Shooting/Gas& Electric Furnaces/Boilers/Oil Furnaces/Accessories/Journeyman Responsibilities

The HVAC Program is 2 years in length and courses must be taken in order. Classes meet 2 evenings per week, 3 hours per night, September through March of each year.

Instructors are full time professionals who teach part time in the evenings, many are graduates of the Home Builders programs.

The Program began in 1981 and continues to be the main source of trades training in the Northern Kentucky area.
